Dear Dr. Bannon:

For your consideration, I am pleased to submit the 1973-74 Annual Report of the Office of Recreation and Park Resources. From this report, you should obtain an indication of the activities in which this office participated during the past year.

As this report states, the Office of Recreation and Park Resources became involved in a number of projects that continued to diversify its operation and increase its services to the citizens of Illinois.

The ORPR staff team is a dedicated, hard-working group, working individually and as a group to bring about the results stated in this report.

I appreciate the continued support received from the Cooperative Extension Service and especially Dr. H. J. Schweitzer, Dr. M. S. Williams, and Dr. J. B. Claar.

Sincerely,

A handwritten signature in cursive script, reading "Elmo B. Meroney".

Elmo B. Meroney
Acting Chief

EBM:cd

ACKNOWLEDGEMENT

A couple of years ago, a graduate student had the task of compiling the monthly and annual reports for ORPR. This graduate student awarded the specialists who got their reports in on time the honor of having their name in print in our front office.

With this in mind, if there was ever anyone who deserved his name in lights or at least in print, in a prominent place, it is ROGER GUTHRIE, graduate assistant, who this year had the tedious and thankless job of keeping after the specialists to get their reports in on time. It has been Roger's job to draw together the facts and figures (often illegible) into a readable form—a job that a lot of people would have rather not done. Roger never complained; he did just an outstanding job, the best we ever had at ORPR. We as a staff are grateful for this time and effort put forth by Roger.

Judging by Roger's dedication to a task of this sort, I know that he will do well in greater things to come in the future.

INTRODUCTION

In September, 1969, approval was given for the merger of the Field Service of the Department of Recreation and Park Administration in the College of Physical Education with the Rural Recreation Section of the Cooperative Extension Service in the College of Agriculture. The merged unit is called the Office of Recreation and Park Resources. The primary purpose of the office is to assist county Extension advisers in conducting educational programs in their respective counties; to provide consultant services to governmental and private agencies that involve unique problems in parks and recreation; to strengthen the University's teaching efforts; and to provide a laboratory for carrying out a sound recreation and park research program.

The Office of Recreation and Park Resources operates through four recreation resource divisions: outdoor, therapeutic, community, and personnel development.

The Outdoor Recreation Resource Development Section, through consultation and research projects, deals primarily in planning, organization, and administration of county and regional park systems such as Conservation Districts, Forest Preserve Districts, and River Conservancy Districts. This section also secures, prepares, and disseminates educational materials as they relate to outdoor recreation resources. It also concerns itself with cooperation among the various state and federal agencies involved in outdoor recreation. These agencies include the Bureau of Outdoor Recreation in the Department of Interior, U.S. Department of Agriculture and state agencies such as the State Department of Conservation and the Department of Business and Economic Development.

The Personnel Development Section concerns itself with providing information and educational materials to professional and lay personnel in recreation and parks. It is responsible also for the examination of program techniques and the solutions to problems that relate to the conduct of recreation and park programs. Personnel of this section collect, prepare, and disseminate information and materials relating to new leadership development, thus enabling recreation and parks groups to provide a more effective service.

The Community Recreation Resources Development Section is responsible for consultation and research dealing with recreation and park problems affecting urban and suburban communities. It attempts to develop evaluative criteria needed in the planning and organizing of park districts and municipal departments of recreation and/or parks. Personnel of this section assist recreation and park authorities in increasing services to their communities.

The Therapeutic Recreation Resources Section engages in management consultation for Illinois Handicapped Services. It is involved in workshops on agency appraisals and institute planning. Personnel of this section are available to help plan and establish programs in the area of therapeutic recreation.

The new Office of Recreation and Park Resources facilitates many cooperative relationships both within the University and with other institutions. For example, a major source of assistance to the Office is the contact with the county extension advisers. At present, there are over three hundred and fifty advisers assigned throughout the state. Their knowledge of local

conditions and their influence in the community is valuable to the ORPR staff. Efforts also are made to strengthen further the relationship between ORPR and the Illinois Association of Park Districts and the Illinois Park and Recreation Society. Other cooperative relationships include the Department of Business and Economic Development, Department of Conservation, Illinois Youth Commission, State Recreation Council, and Department of Local Government Affairs. Of course, as the Office of Recreation and Park Resources expands its service, other important relationships will be developed.

The Office of Recreation and Park Resources is a concerted effort on the part of the University of Illinois to provide the best possible recreation and park service to the citizens of Illinois. This new unit puts Illinois in the forefront in providing public service in parks and recreation.

In a report submitted by the Office of the Vice President to the President of the University of Illinois, the following quote was made regarding the University's role in providing public service: "The University should renew and extend its commitment to public service as a major responsibility so vital and so organically linked to teaching and research that its absence is unthinkable and the question of priority is irrelevant." This statement reflects the University's commitment for its future role. The staff of the Office of Recreation and Park Resources will continue to make every effort to see that this commitment is realized.

ANNUAL REPORT SUMMARY

The following Annual Report will cover the period from July 1, 1973 through and including June 30, 1974.

Prior to beginning operations in September, 1973, the staff participated in identifying and establishing their goals. The following is a brief description and a progress report concerning these goals.

This summary is prepared in accordance with the SEMIS reporting system of the Cooperative Extension Service. All goals relate to the prime purpose, Number 74—SEMIS, namely improving the operational effectiveness of both private and public recreation, wildlife and/or natural beauty enterprises.

COMMUNITY RESOURCE DEVELOPMENT

The Office of Recreation and Park Resources assisted the communities throughout the state concerning recreation and park program development. (A complete list of all Office of Recreation and Park Resources consulting involvements appear on page 38.

COMMUNITY EDUCATION WORKSHOP, "A TIME FOR SHARING"

The Community Recreation Specialist worked with several other Champaign-Urbana agency representatives in planning a local community education workshop for March, 1974. The three-fold purpose of the workshop was to look at existing cooperative ventures in the community, find out what other communities are doing in this regard, and discuss ways and means of improving community education in Champaign-Urbana. Both local and outside resource leaders aided in the conduct of the workshop, which was attended by about 100 agency employees, educators, parent-teacher representatives, and other citizens. As a result of this successful all-day workshop, a steering committee was formed to further explore and recommend future specific areas of action. Likely starting points are formation of a community coordinating council, expansion of the community school program in each neighborhood, and exploration of additional legislation and funding to aid local programs.

COMMUNITY SWIMMING POOL STUDY

Since the Office of Recreation and Park Resources often receives requests concerning planning, financing, constructing, and operating swimming pools, the Community Recreation Specialist and his graduate assistant conducted a survey of 26 selected Illinois communities in early 1974. Aimed at municipalities or park districts under 15,000 population, the survey instrument contained some 31 questions regarding the above concerns. Communities ranged in geographical location from Metropolis on the south to Harvard and Woodstock on the north, and in size from Hennepin (population 600)

to Morton and Oswegoland Park Districts (population 15,000 each). The survey findings were tabulated, summarized, and printed in an ORPR publication entitled A Survey of Selected Swimming Pools in Illinois.

MULTI-COUNTY COMMUNITY RECREATION WORKSHOP

In April, 1974, the Personnel Development Specialist and Community Recreation Specialist cooperated with the Cooperative Extension Service District 10 Community Resource Development Adviser in planning and carrying out a Multi-County Community Recreation Workshop in West Vienna, Illinois. About 60 participants, ranging from poverty-area residents to social welfare agency staff and executive personnel attended the evening workshop. The purposes of the workshop included providing information on initiation or improvement of local recreation programs and allowing participants to apply problem-solving techniques to specific concerns they were experiencing. Discussion topics included program planning, available resources, brainstorming, mobile recreation, community schools, and information on organizing a wide range of recreation programs.

REVENUE SHARING STUDY

In answer to numerous requests for information on revenue sharing, the Personnel Development and Community Recreation Specialists, along with a graduate assistant, conducted a survey of all Illinois municipal park and recreation agencies and park districts. A short questionnaire was devised which inquired about the community's size, whether or not revenue sharing funds were requested and/or received, from what governmental unit funds were received (if any), in what major ways funds were spent for parks and recreation, and whether or not funds would be requested in 1974. The results, including a number of illustrative graphs and charts, were published in booklet form by ORPR, and an article highlighting the study results was prepared for Illinois Parks and Recreation Magazine.

SOFTBALL OFFICIALS' CLINIC

The Community Recreation Specialist cooperated with the Community Resource Development Adviser, Cooperative Extension Service District 10, in organizing, promoting, and carrying out a softball officials' clinic. The clinic idea originated with a request from the Harrisburg Park District and culminating with a Saturday afternoon session which attracted some 15 people in the latter part of April, 1974. The Director of the Granite City Park District and his softball supervisor, both Amateur Softball Association officials, conducted the clinic in Harrisburg. The Community Recreation Specialist contacted the resource leaders, designed and mailed a promotional flyer to many southern Illinois park and recreation agencies, and coordinated planning through the Resource Development Adviser's office. It was felt by all concerned that the rather modest success of this initial effort will lead to greater acceptance of such a service in the future.

CAMPING WORKSHOP

A family camping program and a workshop for the Home Economics Council of LaSalle County was held in Ottawa on April 11. This workshop was designed to provide the Council members with printed and oral information to take back to their clubs.

CENTRAL ILLINOIS RESERVOIR RESEARCH

A special research project on "An Awareness Program of Opportunities for Private Recreation Enterprises around the Central Illinois Water Reservoirs" was begun. The project was not fully funded and will not be completed during the current fiscal year. The objective of the project is to develop an educational program to create an awareness of the significant opportunities available around these reservoirs for related recreational enterprises.

STUDY OF FEES AND CHARGES FOR ILLINOIS CAMPGROUNDS

A study was completed at federal, state, county, and private campgrounds in Illinois to determine fee structures, facilities available, trends in charges made, and services provided.

USE OF COUNTY FAIRGROUNDS IN ILLINOIS

A study was completed on county fairgrounds throughout the state to determine the size and physical nature, the facilities available, and the type and extent of use currently being made of these areas. The study also points out examples where there are cooperative agreements with other agencies for use of fairgrounds.

ORPR BROCHURES

Completed brochure ORPR-26, "Guidelines for Selecting Park and Recreation Consultants," a list of professional firms in parks and recreation. Revised ORPR-9, "Cost Ranges for Facility Development in Private Campgrounds." Revised ORPR-27, "Guide for Assessing Recreational Possibilities on Private Land."

EDUCATIONAL RESOURCES IN ENVIRONMENTAL SCIENCES

This project was transferred to ORPR in July, 1973, on a provisional basis and functioned under the supervision of the Outdoor Recreation Specialist. ERES is an instructional resource unit with special interests and capabilities in environmental and outdoor education. The staff of ERES, through Cooperative Extension Service channels, was involved in a number of workshops on environmental education at Western Illinois 4-H Camp and in individual counties. Through environmental consultations with park districts, as well as county and state agencies, the project received exposure throughout the state.

COMMISSIONERS' AND BOARD MEMBERS' SEMINAR

The Eighth Annual Recreation and Park Commissioners' and Board Members' Seminar was held at the Ramada Inn on March 29-30, 1974. The theme of the seminar revolved around a "Problem Solving Workshop," led by Dr. Joseph Bannon. Approximately 75 persons registered, representing 36 agencies. The two-day program involved commissioners in small group sessions designed to help them learn the process of problem solving.

MINISTERS' RETREAT

A two-day retreat was held April 22-23, 1974, in Champaign for 140 ministers and wives from the Central Illinois Council of the United Methodist Church. It was strictly a potpourri of recreational experiences designed to help individuals appreciate and constructively utilize their leisure time. It was completely different from any former Methodist retreats, and was judged a great success.

LEADERSHIP TRAINING WORKSHOPS FOR EXTENSION PERSONNEL

4-H multi-county workshops, led by graduate student John Bailey, were held in McLeansboro and Springfield. These workshops were for the benefit of Cooperative Extension personnel and youth leaders. Additionally, sessions were conducted during 4-H week at the Urbana-Champaign campus. The sessions, entitled "Involvement - Youth in Recreation," were intended to help youth get involved in providing recreational experiences for themselves, as well as others. A similar session will be held for youth advisers at the 1974 Fall Conference.

SWIMMING POOL WORKSHOPS

In cooperation with the Illinois Department of Public Health, we assisted in conducting sessions at eight regional swimming pool operators' workshops. The sessions dealt with liability, staffing, and programming of pool facilities. This service was so well received that we are considering expansion next Spring.

TOWN AND COUNTRY ART SHOW PROGRAM

The Office, under the leadership of Ann Kief, continued to coordinate the state staff efforts for the Annual Town and Country Art Show, which was held from October 21 through November 4, 1973, at Lincoln Square in Urbana, Illinois. Included in this work project were an extensive revision of the Handbook for County Town and Country Amateur Art Exhibits, and changes in state show policies in order to facilitate a more efficient operation. There were approximately 4,482 exhibitors that registered in 64 county shows in 1974. Six regional shows were held at Rock Island, DeKalb, Canton, Urbana, Centralia, and Carterville. From the regional shows, approximately 129 art or craft pieces are to be shown at the 1974 state show to be held at Lincoln Square October 27 - November 10, 1974.

PERSONNEL PLACEMENT AND RECRUITMENT

The Office of Recreation and Park Resources received approximately 3,842 job announcements throughout the United States in the field of recreation and park administration.

Job Listings

Illinois

Municipal	34
Park Districts	93
Therapeutic	46
Voluntary—Non-Profit	138
Outdoor	8
Education	16
Summer Positions	95
Other	<u>16</u>
TOTAL	446

Non-Illinois

Municipal	340
Therapeutic	36
Voluntary—Non-Profit	2,609

Outdoor	32
Education	159
Summer Positions	180
Other	<u>41</u>
TOTAL	3,397

Our job services were greatly expanded. Many more contacts were made nationally in order to increase our awareness of position vacancies. We were unable to continue receiving listing from the National Recreation and Park Association, and this prevented us from listing a still greater number of vacancies. This Office assisted individual registration with the National Recreation and Park Association and the Illinois Park and Recreation Society.

A total of 221 students and professionals were assisted with job placement, including resumes, interviews, and follow-up consultations. The Illinois Park and Recreation Society has provided a grant which pays, in part, for the printing of the bulletin that is mailed to municipal recreation departments, park districts, therapeutic agencies, and colleges and junior colleges offering recreation curriculums. Additionally, this office maintains a mailing list for individual subscribers.

EXTRAMURAL EXTENSION COURSES

In cooperation with the University of Illinois Division of Extension, the Office helped coordinate and promote the following courses in the Chicago area: Recreation E330 - Principles of Therapeutic Recreation; Recreation E402 - Recreation Administration; Recreation E403 - Investigation and Evaluation in Recreation; Recreation E401 - Foundations of Recreation; Mathematics E582 - Applied Statistical Methods I and II (Circle Campus).

THERAPEUTIC RECREATION PERSONNEL

The position of Therapeutic Recreation Specialist was created in July of 1970 through a grant provided by the Board of Vocational Education and Rehabilitation, Division of Vocational and Technical Education. The Specialist position was continued during the 1972-73 academic year with non-recurring funds made available through the Vice-Chancellor's office. Recurring monies were made available for permanently establishing the position during 1973-74.

THERAPEUTIC RECREATION GRANT—"DEVELOPING A TWO-YEAR COMMUNITY COLLEGE CURRICULUM IN THERAPEUTIC RECREATION"

The Bureau of Education for the Handicapped (HEW) has provided funding in excess of \$250,000 for a three year period to the Office of Recreation and Park Resources for the purpose of developing and evaluating a two-year prototype curriculum in therapeutic recreation. The Therapeutic Recreation Specialist has served this past year as project director and principal investigator, a responsibility which has required approximately fifty percent of his time. Under the able supervision of the curriculum coordinator, Mr. Gary Robb, the project has progressed on schedule during 1973-74. A nation-wide competency study has been completed, contracts have been negotiated with three community colleges (Parkland, Triton and Moraine Valley), instructors have been hired, and curriculum materials are in the process of being completed for implementation during the fall semester of 1974.

THERAPEUTIC RECREATION SPECIALIST COMPLETES NTRS PRESIDENTIAL RESPONSIBILITIES DURING 1973-74

Mr. Jerry Kelley, Therapeutic Recreation Specialist, is currently completing a three-year commitment to the National Therapeutic Recreation Society during which time he has served as president-elect, president and past-president. This responsibility, which will terminate officially as of October, 1974. has

required Mr. Kelley to travel extensively throughout the nation during the past two years.

PROGRAMS TO INFORM CITIZENS OF NEED OF THE DISABLED

The Board of Vocational Education and Rehabilitation funding requirements (1970-73) allowed the Therapeutic Recreation Specialist to place primary emphasis on providing training opportunities for professionals and sub-professionals employed in the field of therapeutic recreation around the state. This required a substantial time commitment to the Illinois Therapeutic Recreation Society and other professional organizations and resulted in numerous innovative training programs and publications.

During 1973-74 an attempt was made to shift the emphasis to citizen involvement. A Cooperative Extension publication entitled "Developing Community Recreation Programs for the Disabled," written by Shirley Bushell and Jerry Kelley, has been published and distributed throughout the state; citizen-oriented workshops have been developed and piloted in several sections of the state; and special efforts have been made to reach and communicate with the citizen through correspondence, personal contact, speeches, and radio interviews.

BEH GRANT - THERAPEUTIC RECREATION CURRICULUM DEVELOPMENT IN COMMUNITY COLLEGES

Curriculum development activities were initiated in September of 1973, with Triton College, Parkland College, and Moraine Valley College being selected as initial implementing institutions for the new Therapeutic Recreation Curriculum. Instructors have been employed at each of the colleges. Gary Robb, Project Coordinator, will have primary responsibility for curriculum implementations and supervision. Second year project funding in excess of \$110,000 has been received and will be utilized in the continued development and ongoing evaluations of the curriculum development process.

PERSONNEL CHANGES

- A. Elmo B. Meroney was appointed to the position of Acting Chief, August, 1973. Mr. Meroney previously held the position of Personnel Development Specialist.
- B. Joseph J. Bannon resigned from the position of Chief and was appointed Head of the Department of Recreation and Park Administration.
- C. Ann L. Kief joined the staff in the Office of Recreation and Park Resources in August, 1973, to fill the position of Personnel Development Specialist.
- D. Barbara Kucera resigned in August, 1973, to take another position as Administrative Secretary. She was replaced by Norma Anderson on August 27, 1973.
- E. Michele Mailloux again participated in the College Work/Study Program sponsored by the Financial Aids Office and worked as a clerical assistant in the Office of Recreation and Park Resources. Michele was a University of Illinois spring graduate (May, 1974) with a B.A. Degree in Art History.
- F. Cathy Paceley joined the staff in the Office of Recreation and Park Resources March 4, 1974, to fill the position of Clerk-Stenographer III for the BEH Project. She replaced Marilyn Ragle who resigned March 1, 1974.
- G. Cathy Daubard, Clerk-Stenographer III, joined the staff in the Office of Recreation and Park Resources June 3, 1974. She replaced Lori Abrams who resigned May 15, 1974. Mrs. Abrams filled the Clerk-Stenographer III position vacated when Mrs. Carol Lake resigned in August, 1973.

STUDENT AND PERSONNEL ASSISTANCE

Espeseth, R. D.

Dick Quigley - General information
for graduate school

Jon Jenson - General information for
graduate school

Assisted five students with information
in various areas:

Roger Martin - Discussion of Project
on Reservoirs

Dorthea Stephen - Discussion of
questionnaire

Allan McNeal - Discussion of Project

Ron Vine - Graduate Assistant - Fees
& Charges & Campground Studies

Roger Guthrie - Graduate Assistant -
Central Illinois Reservoir Aware-
ness Study

Fred Landfeld - Employment Opportunities
and Sources

John Cobb - Job Opportunities

Greg Pierceall - Landscape Architecture

Gene Merdian - Job Opportunities

Ron Vine - Advice to student

Roger Guthrie - Advice to student

Steve Lutz - Advice to student

Ron Vine - Graduate Assistant - Fees
and Charges, and Fairground Studies

Roger Guthrie - Graduate Assistant-
Central Illinois Reservoir Awareness
Study

Five students assisted with materials
for projects

Scholarship Recommendation

Guest Lectures: Recreation 100 - County
Responsibilities in Recreation and
Parks; Recreation 130; Recreation 310 -
Three lectures - Role of State and

Espeseth, R. D. (cont'd)

County Park and Recreation Agencies,
Information on Legislation and
Funding, and Budget Review; Recrea-
tion 321 - Reorganization of the class
and class outline, discussion with
students and staff on course revision;
Recreation 490 - one lecture.

Hunke, R. P.

Bert Gray - OEPR Visitation Discussion

Steve Lutz - Park District Referenda

Leonore Hoover - Letter of Reference

Rich Sokolowski - Letter of Reference

Tom Voigh - C-U LATER Program

Byron Lindmore and Jim Pound - Master
Planning (Honors Class)

Rich Schroth - Graduate Assistant -
Swim Pool Study and Planning Kit

Bill Smith - Letter of Reference for
employment

LuAnn Walker - Letter of Reference for
Graduate School

Paul Metzler - Residence Hall Special
Event

Claudia Washburn - Graduate Student -
Recreation Planning in Villa Grove

Chuck Cumby - Urban Planning in Cerro
Gordo - Two Conferences

Glenna Tharp - Two Conferences about
Mahomet Recreation Survey

Barbara Storm - Urbana Attitude/
Interest Survey

Linda Hartwig - ISU - Internship in
Peoria

Melinda Smith - Lighted School Project -
Two conferences

Humke, R. E. (cont'd)

Richard Partak - Masters Planning

Kathy Adams - Masters Planning

Rick Meyner - Peoria Park District

Susie Mitzkat - IPRS Organization

Grant Cushman - Community Survey

Grant Stevie and Dave Gilchrist -
Governor State University students

Glenna Tharp - Mahomet Attitude/
Interest Survey

Bruce Lester - Graduate Student
Applicant

Ron Vine - Revenue Sharing Study

Rich Schroth - Graduate Assistant -
Approximately ten conferences

Students on ORPR Trips: Bert Gray,
Gregg Randolph, Bill Smith, and
Chris Finlay

Approximately 110 individual conferences
with students involved in Recreation
215

Guest Lecture for Recreation 280 -
Professional Organizations

Recreation 310 - Evaluated Student
Budget Presentations

Kelley, J. D.

Five students assisted with class
projects

Ten students assisted with job placement

Four conferences with Ann McCall con-
cerning Recreation 493 Project

John Lewko - Finals Orals & Doctoral
Committee

Guest Lectures: Two lectures for
Recreation 130; one lecture for
Recreation 280; nine lectures for
Recreation 330; one for Recreation
401 and two for Recreation 490.

Kief, A. L.

A total of 23 students and professionals were assisted with job placement and resumes. (August, 1973)

A total of 16 students and professionals were assisted with job placement and resumes. The Job Opportunity Bulletin was mailed to 150 students and professionals. Additionally, 550 Job Opportunity Bulletins were sent to agencies within the state. (September, 1973)

A total of 15 students and professionals were assisted with job placement and resumes. The Job Opportunity Bulletin was mailed to 150 students and professionals. Additionally, 550 Job Opportunity Bulletins were sent to agencies within the state. (October, 1973)
